

SCREENING & CONTACT TRACING

HOW TO USE THE MUSCLEWARE SCREENING & CONTACT TRACING SYSTEM

Some venues (and/or municipalities, counties, States, etc.) require complete contact lists and personnel manifests for all in attendance at events. Most often this is to enable contact tracing, in the event of a COVID-19 / communicable disease outbreak.

If necessary, Promoters can enable **Muscleware Screening & Contact Tracing**, which is a digital tool that can be used to satisfy this requirement.

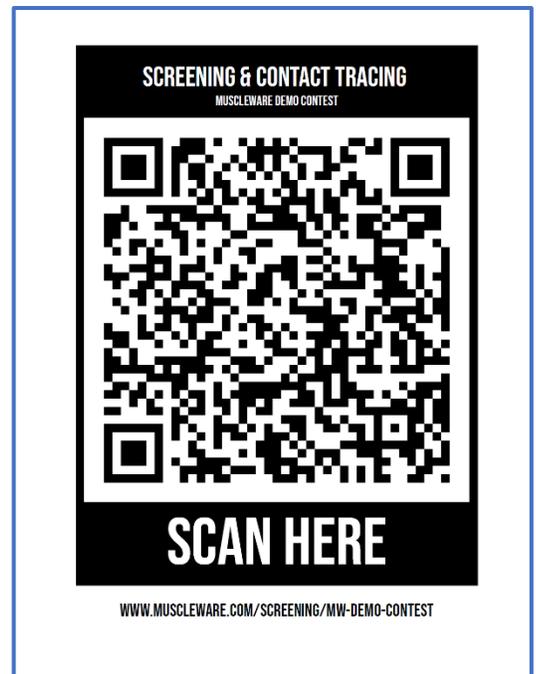

When enabled, Promoters receive an additional link on their "**Event Deliverables**" page, which prints the **Screening & Contact Tracing QR code**.

This **QR Code** can be printed and posted at all entrances to the venue/theatre, to be scanned by all who enter, via their mobile phone cameras.

A QR code is simply a square-shaped bar code that contains encrypted information. In this case, that information is a regular web address.

The **Screening & Contact Tracing QR code**, when "scanned" with a typical smart phone camera, will open a web browser to an online form for the event the QR code was created for.

An example of a QR code is to the right.

I HEREBY DECLARE:

I am not currently experiencing any of the following symptoms: fever or chills, difficulty breathing or shortness of breath, cough/sore throat, trouble swallowing, runny nose/stuffy nose or nasal congestion, decrease or loss of smell or taste, nausea, vomiting, diarrhea, abdominal pain, not feeling well, extreme tiredness, sore muscles.

Additionally, I confirm that I have not travelled outside of Canada in the past 14 days, and I have also not had close contact with a confirmed or probable case of COVID-19

I HAVE READ AND AGREE TO THE DECLARATION

CONTINUE

MUSCLEWARE

The **Screening & Contact Tracing** form captures **Names, Phone Numbers** and **Email Addresses** of all contacts.

Additionally, there is a **Declaration** that must be agreed to.

The content of the Declaration is **customizable** by the Promoter, and may be set to contain any specific text necessary, according to the requirements of the venue (or municipality, county, State, etc.).

An example of the **Screening & Contact Tracing** form is to the left.

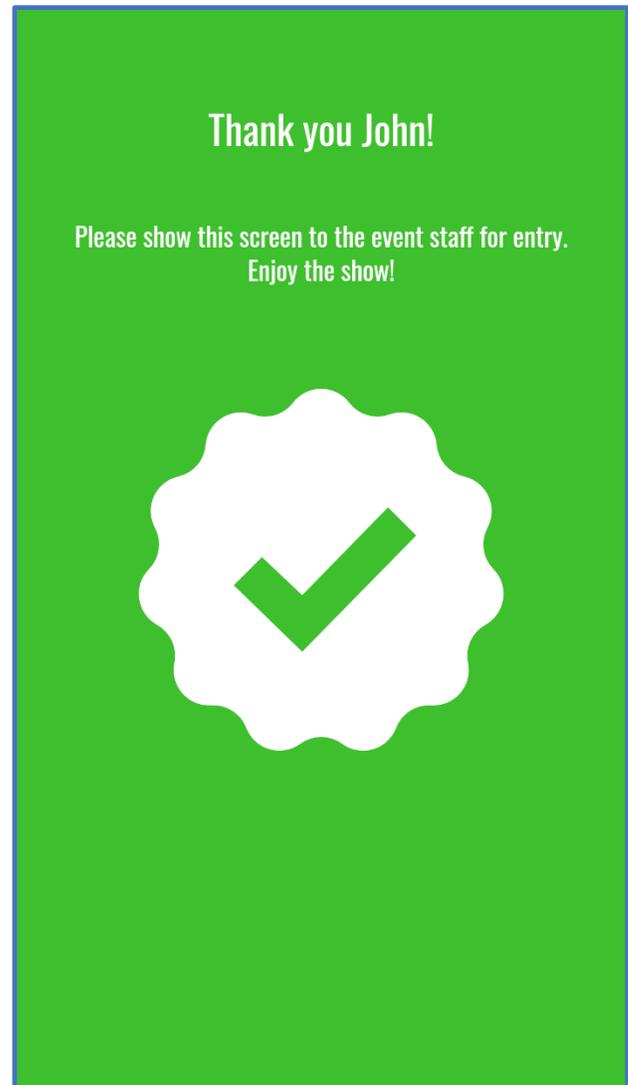

Once all fields are completed, and the Declaration is agreed to, the individual taps the **“CONTINUE”** button.

The individual is taken to a green confirmation screen with a check mark icon.

An example of this screen is to the right.

This screen can be shown to event staff as proof the individual has completed their screening.

All captured contacts are stored in **Muscleware**. Additionally, all data can be exported/downloaded by Promoters from the **"DASHBOARD"** tab of the **Promoter's Portal**.
